

Cookies Policy

This site uses cookies to store information on your computer. This policy explains how we use cookies and may be amended from time to time, without notice. To ensure that you are using this site with full and up-to-date information of how we use cookies, please review this policy regularly as any amended policy will be updated on the site. By using this site you agree to the placement of cookies on your computer in accordance with the terms of this policy. If you do not wish to accept cookies from this site, please either disable cookies or refrain from using this site.

What are cookies?

Cookies are small text files, which often includes a unique identifier that is sent by a web server to your computer, mobile phone or any other internet enabled device ("device") when you visit a website. Each website can send its own cookie to your browser if your browser's preferences allow it, but (to protect your privacy) your browser only permits a website to access the cookies it has already sent to you, not the cookies sent to you by other websites. Many websites do this whenever a user visits their website in order to track online traffic flows. Cookies are used in order to make websites work efficiently and they also help provide us with business and marketing information which enables us to make informed decisions on the development of our website.

Users have the opportunity to set their devices to accept all cookies, to notify them when a cookie is issued, or not to receive cookies at any time. The last of these means that certain personalised features cannot then be provided to that user and accordingly they may not be able to take full advantage of all of the website's features. Each browser is different, so check the "Help" menu of your browser to learn how to change your cookie preferences. Alternatively, you may wish to visit www.aboutcookies.org which contains comprehensive information on how to do this on a wide variety of browsers. You will also find details on how to delete cookies from your computer as well as more general information about cookies. For information on how to do this on the browser of your mobile phone you will need to refer to your handset manual.

Third party cookies

Goodhart also uses cookies which collect information and send it to third parties. An example of this is Google Analytics. Goodhart does not control any cookies that may be sent by these external websites. Where this site allows such cookies to be set or you access other websites from this site using the links provided, the operators of these websites will use cookies in accordance with their own cookies policy, which may differ from ours.

Goodhart's use of cookies

When using cookies, we do not collect or store any personal information about you. Many cookies are designed to give you optimal usage of the web. In order to be able provide relevant information to our visitors, we need data that is collected by means of cookies:

Analytical - this type of cookie helps us to see how you use our website. They don't collect any information that could identify you – all the information collected is anonymous and is only used to help us improve the performance of our website, understand what interests our users and measure how effective our marketing is.

Persistent cookies - help us recognise you as a unique user when you return to our website remember how you have customised your use of this site and collect and compile anonymous, aggregated information for analytical purposes.

To make full use of the website, you will need to accept cookies, as the site will not function properly without them.
